Youth Grant Application

The Traditional Muzzleloading Association (TMA) has established a fund dedicated to promoting youth oriented muzzleloading shooting and related programs. The moneys in the fund are accumulated from a portion of the TMA membership fees.

The opportunity is now available for any TMA Supporting Member interested in either developing or improving their associated Youth Programs to acquire support for those programs from the TMA. This support is currently provided in the form of traditional muzzle loading rifles, or accessories', being provided directly to the organization responsible for their use and/or distribution.

If any TMA Supporting Member with a Youth Organization has either a new or an existing youth program that would benefit from additional resources, or you know of any other group which would be a candidate for such assistance, resources could be available from the TMA.

If interested please provide a summary of the program as well as contact information for the person responsible for management of the activity by filling out the form below.

The form provided below is required to begin the process of obtaining a TMA Youth Grant. The TMA Youth Grant Committee will select those programs to share the dedicated funds from grant requests received. Any program intended to enhance youth participation in muzzleloading will be considered. Requests should be received on or before December 1st for the following year. Requests will be acted upon and announced at the first TMA meeting in the new year. For further information please contact one of the TMA Board of Directors.

Organization:
Contact Name and TMA Membership Number;
Address:
